Cyber Risk Evaluator

Elevate Your Cybersecurity Posture with our vCISO Platform

In an era where cyber threats are growing in scale and sophistication, small and medium-sized businesses (SMBs) face increasing pressure to secure their operations. Traditional cybersecurity services are often expensive and resource-intensive, making them out of reach for many SMBs. CyberRiskEvaluator (CRE) changes the game with its innovative Virtual CISO (vCISO) platform.

Why Your Clients Need CRE

In the coming years, SMBs must prioritize cybersecurity to remain compliant, competitive, and secure. CRE helps your clients achieve:

- Cost Savings: A high-level cybersecurity service without the expense of hiring a full-time CISO.
- Enhanced Security: Proactive defense against cyber threats.
- Regulatory Compliance: Stay ahead of industry standards and requirements.

Become a CRE Reseller

Join our thriving network of partners and offer your clients an indispensable cybersecurity solution while boosting your own business. The CRE Reseller Program is designed to empower you with all the tools and support needed to succeed – all without any upfront investment.

Why Partner with CyberRiskEvaluator?

- **No Investment Required:** Get started with zero financial commitment.
- **Cutting-Edge Tools:** Leverage a state-of-the-art platform with regular updates to stay ahead of emerging threats.
- **Revenue Growth:** Tap into a high-demand service and unlock new earning opportunities.
- **Stronger Client Relationships:** Deliver measurable value to your clients by enhancing their security posture.
- **Comprehensive Support:** Receive in-depth training and continuous assistance to ensure your success.

Who Can Benefit as a Reseller?

- IT Consultants
- Managed Service Providers (MSPs)
- Security Service Providers (SSPs)
- Business Advisors

How It Works

- Partner with CRE: Sign up to access our reseller resources and training.
- Promote the Platform: Introduce your clients to CRE's benefits.
- Grow Together: Earn revenue while your clients achieve enhanced cybersecurity.

CRE – Your Cybersecurity Funnel System

Turn Insights into Opportunities

CyberRiskEvaluator (CRE) is more than just a cybersecurity platform—**it's a strategic funnel system designed to drive sales and deliver value**. By providing quick, actionable insights, CRE helps agencies and companies break down barriers in selling cybersecurity services and open the door to advanced solutions.

How CRE Works as a Funnel System

- **Deliver Quick Assessments** that highlight a company's overall cybersecurity posture.
- **Show the potential losses** caused by a Ransomware Attack
- **Perform Quick Social Tests** to uncover employee vulnerabilities to phishing or social engineering attacks.
- **Run Quick External Penetration** Tests to identify critical risks in the client's network.

These steps demonstrate immediate value and establish trust with your clients.

- Engage with Data-Driven Insights
- Share detailed, professional reports that illustrate the organization's current vulnerabilities and risks.
- Help clients understand the importance of improving their cybersecurity posture with measurable data.
- Enable Upselling and Further Sales

Use the initial findings to propose tailored solutions such as managed services, in-depth penetration tests, compliance audits, or long-term vCISO support. Discover how CRE can transform your business and help your clients secure their future. Partner with us today and be a part of the cybersecurity revolution.

Create an ongoing partnership built on continuous improvement.
